Professional Experience

Data Scientist

2025/Jul - Ongoing

MSI Digital Builders

- Development of Dataspace project
- ETL for project management and data unification
- Audit of Smart Score

Data Scientist

2025/Feb - 2025/Jul

Alight

- Design of AI algorithms

Simulation Engineer

2024/Jun - 2024/Dec

FlexsimIberia

- Development and optimization of simulation models for production and logistic processes
- Analysis of simulation result to identify inefficiencies and to provide insights to drive strategic decision-making

Data Engineer

2023/Oct - 2024/Jan

Experis

- Creation of filters and controls for Santander bank with Big Data

Data Scientist

2022/Mar - 2023/Oct

Cesefor

- Research and development of Computer Vision Applications for the digital transformation of the forest industry
- ETL automation for project management and resource tracking
- Data visualization and reporting
- Wood construction visualization AR app

Google Search Language Specialist

2020/Feb - 2021/Oct

Qualitest

Spanish Localization Specialist

2018/Jun - 2019/Oct

Ubisoft

Education

Bootcamp in Data Science and Machine Learning

2021

ID Bootcamps

Master degree in Software Localization

2017-2019

Instituto Superior de Estudios Lingüísticos y traducción

Degree in Translation and Interpreting

2011-2016

Universidad Pablo de Olavide

Degree in Human Studies

2011-2016

Universidad Pablo de Olavide

Intermediate

IT Skills

- Python, Golang, C#
- Version control systems (Github, Bitbucket, Jira, etc.)
- DDBB (SQL, MongoDB, etc.)
- Data visualization tools (Matplotlib, Seaborn, etc.)
- Automatization tools (Selenium, etc.)
- Machine learning (pandas, sklearn, etc.)
- Deep learning (Keras, Tensorflow, Pytorch, etc.)
- Computer vision tools (OpenCV, etc.)
- 3D engines (Unity, etc.)

Accomplishments

Winner of JOB Madrid 2021
Junior Hackathon
